AUTO GLASS WASH DETERGENT

COMMERCIAL AUTOMATIC GLASS WASH

A specially formulated, high-strength liquid detergent for use in commercial automatic dishwash and glasswash machines. Effective on a variety of crockery, china, glass, stainless steel, plastics and kitchen utensils. Septic tank safe, when used as directed.

DIRECTIONS

Place auto-feed tube into container from automatic commercial machines, as required.
Adjust dosage rates based on required clean and water conditions.
Not recommended for aluminium or other soft metal-constructed kitchen items.

APPLICATIONS

For commercial automatic glasswash and dishwash machines.
Suitable for most ware materials including: china, glass, stainless steel, plastics and common kitchen utensils.

MPI APPROVAL

MPI Approved C31 (All Animal Product Except Dairy)
