AUTO SAFEGUARD DISH & GLASS

NON-CAUSTIC AUTO DISH AND GLASS WASHING LIQUID

Concentrated, non-DG (transport) liquid detergent to suit wide range of surfaces - cutlery, crockery, china, stainless steel and plastic/synthetic. An ideal safer alternative to most caustic based formulations. Can also be used as a safer heavy-duty soaking agent for aluminium components. Septic tank safe when used as directed.

DIRECTIONS

For commercial automatic glasswash machines inject via an automatic pump at a ratio of 1:500 (0.2% solution, 2ml per litre) with potable wash water. Warewash units use at a ratio of 1:250 (0.4% solution, 4mls per litre) of potable wash water. If used as a soaking agent, use at a ratio of 1:1 with potable water and soak for a time suitable for the results desired. Prior testing of surface suitability for soaking application is recommended.

APPLICATIONS

Liquid dishwashing detergent for automatic commercial dishwashers. Can be used as a soaking agent.

MPI APPROVAL

MPI Approved C31 (All Animal Product Except Dairy)

5 litres make up
to 5000 litres of
diluted solution*

- LOW FOAM
- NON-CAUSTIC
- SAFER SOAK FOR ALUMINIUM
- LOW COST-PER-WASH

5Lt:

FK-ACNCAD605

**Chemical
Solutions**
LIMITED

* Based on 10mls per average 10 litre wash solution using a probed dispensing system (providing approximately 200-300 PPM alkaline salts across 4 wash cycles).
