PRODUCT INFORMATION SHEET

DRYING AID

Product SDS

STREAK-FREE RINSE ADDITIVE

Concentrated spot-free drying aid for the fast drying of dishes and cutlery, assisting in speed of service and leaving items gleaming. Suitable for both manual and auto dispensers. Septic tank safe when used as directed.

DIRECTIONS

Domestic: Fill domestic machine rinse aid reservoir as required.

Commercial: Insert auto-feed tube for automatic commercial machines, as required.

Use approximately 2.5mls per litre of wash water or 25mls per 10 litres if setting the drying aid for the first time use.

APPLICATIONS

Drying agent for use in both domestic and commercial automatic warewash & glasswash units. Can be used in both manual and auto dispensers.

MPI APPROVAL

MPI Approved C31 (All Animal Product Except Dairy)
